Staunton Redevelopment and Housing Authority
Project Based Voucher Program

Request for Proposals

Staunton Redevelopment and Housing Authority (SRHA) is accepting proposals from qualified, responsible owner/developers (Proposer) to provide affordable, permanent new construction housing for families within the City of Staunton. New construction is defined as housing that does exist at the time of proposal selection. SRHA encourages property owners and developers to make rental housing available to lower income households at affordable rents that are consistent with HUD Fair Market Rents (FMR). Developers must be licensed to do business in the City of Staunton and the Commonwealth of Virginia.

In accordance with SRH 's agency Plan and the Housing Choice Voucher (HCV) administrative plan, SRHA anticipates awarding a maximum of 14 Project Based Vouchers (PBVs) under this RFP. These vouchers may involve awards to one or more Proposer.

SRHA does business in accordance with the Federal Fair Housing Law and the Section 504 program accessibility requirements. SRHA complies with the Fair Housing Act and provides reasonable accommodations and modifications to persons with disabilities. SRHA does not discriminate against individuals because of race, color, religion, sex, disability, familial status, national origin, sexual orientation, or gender identity in admission or access to its programs. Small businesses and businesses owned by women and/or minorities are encouraged to apply.

SRHA is a public housing authority created pursuant to the Commonwealth of Virginia statues. SRHA owns and manages public and affordable housing communities within the City of Staunton. SRHA administers a Housing Choice Voucher (HCV) Program. SRHA is allocated 234 Housing Vouchers.

Program Information

HUD allows Public Housing Authorities (PHAs) to use up to 20% of HCV program funds to provide project-based assistance¹

Under the PBV program, SRHA enters into an assistance contract with the owner for specified rental units, for a specified term (up to 15 years) subject to funding availability. Assistance or subsidy is provided for units that meet the program standards. To fill vacant project-based units, SRHA refers families from its waiting list to the project owner. SRHA subsidy standards determine the appropriate unit size for the family size and composition.

Housing units and/or projects that are not eligible for PBV assistance include:

- Shared housing;
- Units on the grounds of penal, reformatory, medical, mental, or similar public or private institutions;
- Nursing homes or facilities providing continuous psychiatric, medical, nursing services, board and care, or intermediate care (assistance may be approved for a dwelling unit in an assisted living facility that provides home health care services such as nursing and therapy for residents of the housing);
- Units owned or controlled by an education institution or its affiliate and designed for occupancy by
 - The students of the institution;
- Manufactured homes;
- Cooperative housing;
- Transitional housing;
- High-rise elevator projects for families with children;
- Owner-occupied housing;
- Units occupied by an ineligible family;
- Subsidized housing types determined ineligible in accordance with HUD regulations

Sites selected for PBV assistance must be:

¹ 24 CFR Part 983, Project Based Voucher (PBV) Program, specifies that buildings containing more than four units are subject to 25%-unit limitation on the number that can have project-based assistance. Developments that will serve the elderly, or disabled, or provide supportive services are exempt from the limitation.

- consistent with the goal of de-concentrating poverty and expanding housing and economic opportunities
- compliant with the applicable laws regarding non-discrimination and accessibility requirements
- compliant with Housing Quality Standards (HQS) site standards
- compliant with HUD regulations for site and neighborhood standards
- compliant with local city zoning requirements.

Proposer must provide proof of clear ownership to the site. All required land use approvals must be obtained. Any award of vouchers is contingent upon receiving all required land use approvals.

New Constructions must:

- meet the applicable requirements of the HUD OBV and HCV program regulations
- meet the Housing Quality Standards (HQS)
- comply with design and construction requirements of the Fair Housing Amendments Act of 1988, implement regulations at 24 CFR 100.205, as applicable and accessibility requirements of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and implement regulations at 24 CFR part 8.

Proposed sites will be visited by SRHA to ensure that construction activities have not been initiated prior to the award of any PBV vouchers and the signing of the Agreement to enter into a Housing Assistance Payments Contract (AHAP). Activities under the PBV program are subject to HUD environmental regulations and may be subject to review under the National Environmental Policy Act by local authorities. New construction of nine or more units will involve application of the federal Davis-Beacon construction wage guidelines.

The owner and owner's contractors and subcontractors must comply with all applicable State and federal labor regulations laws and regulations federal equal employment opportunity requirements and HUD's implementing regulations. (CFR 24 Part 983).

Prior to the execution (AHAP), new construction must complete required environmental and subsidy layering reviews for approval by HUD.

An environmental review must be completed by a HUD-designated responsible entity unless excluded from the review by the National Environmental Policy Act (NEPA).

The subsidy layering review prevents excessive public housing assistance by combining (layering) housing assistance subsidy under the PBV program with other governmental housing assistance from federal, state, or local agencies, including assistance such as tax concessions or tax credits.

In the AHAP, the owner agrees to develop the contract units and SRHA agrees that, upon timely completion of such development in accordance with the terms of the AHAP and after inspection according to Housing Quality Standards (HQS).

SRHA will enter into a HAP contract with the owner within ten (10) business days. The AHAP terms include the estimated initial rents to the owner for the contract units. The amount of rent to owner is determined in accordance with HUD regulations. Except for certain tax credit units, the rent to owner must not exceed the lowest of:

- an amount determined by SRHA, not to exceed the approved Payment Standard for the unit bedroom
- size minus any utility allowance
- the reasonable rent; or
- the rent requested by the owner.

Other content requirements of the AHAP Contract are identified in 24-CFR 983.152, Purpose and content of the Agreement to enter into HAP contract.

SRHA has no responsibility or liability to the owner of any other person for the family's behavior or suitability for tenancy. The owner is responsible for screening and selection of the family referred by SRHA to occupy the owner's unit based on their tenancy histories. SRHA screens families for their eligibility to receive the voucher assistance, and the owner screens the family for their suitability to enter into a lease agreement. At least seventy-five percent (75%) of the families approved for tenancy shall be families whose annual income does not exceed thirty percent (30%) of the median income for this area as determined by HUD and as adjusted by family size.

During the period of the tenant's lease the owner may not terminate the lease without good cause "Good cause" does not include a business or economic reason or desire to use the unit for an individual family or non-residential rental purpose. Upon expiration of the lease the owner may; renew the lease, refuse to renew the lease for good cause or refuse to renew the lease without good cause.
